

# CALL FOR PAPERS

Division of Energy and Fuels (ENFL)  
American Chemical Society Symposium

## Sustainable Energy and Water *via* Innovative Electrocatalytic, Photocatalytic and Hybrid Catalytic Systems

258<sup>th</sup> ACS National Meeting & Exposition

Aug 25 – 29, 2019, San Diego, California

Topics include, but are not limited to:

- Water purification and waste water treatment
- Water splitting to fuels
- Oxygen reduction and evolution
- Nitrogen reduction for NH<sub>3</sub> synthesis and NH<sub>3</sub> fuel cells
- CO<sub>2</sub> reduction to fuels
- Upgrading of biomass-derived chemicals and fuels
- Fuel cells/electrolyzers
- New concepts for energy and water conversion
- Advanced characterization and theoretical modeling

### Organizers

**Prof. Yingwen Cheng**, Department of Chemistry and Biochemistry, Northern Illinois University. E-mail: [ycheng@niu.edu](mailto:ycheng@niu.edu)

**Prof. Chong Liu**, Department of Chemistry and Biochemistry, University of California, Los Angeles. E-mail: [chongliu@chem.ucla.edu](mailto:chongliu@chem.ucla.edu)

**Prof. Gang Wu**, Department of Chemical and Biological Engineering, University at Buffalo, The State University of New York, E-mail: [gangwu@buffalo.edu](mailto:gangwu@buffalo.edu)

**Dr. Yuyan Shao**, Electrochemical Materials and Systems, Pacific Northwest National Laboratory, E-mail: [yuyan.shao@pnnl.gov](mailto:yuyan.shao@pnnl.gov)

**Prof. Feng Jiao**, Department of Chemical and Biomolecular Engineering, University of Delaware, E-mail: [jiao@udel.edu](mailto:jiao@udel.edu)

Please submit your abstract on-line at

<https://maps.acs.org>

**Abstract submission due date: Mar. 25, 2019**

Program Chair  
Prof. Hongfei Lin  
Washington State University  
E-mail: [hongfei.lin@wsu.edu](mailto:hongfei.lin@wsu.edu)
